Items 31-35 pertain to Interrogator									
31. INTERROGATOR	2. HOME UNIT								
33. DATE INFORMATION RECORDED				34. TIME					
35. Information recorded by				PERSONAL INTERVIEW TELEPHONE					

HOW TO USE THE GROUND INTERROGATION REPORT

Mission Headquarters

- A. One man should be assigned the job of compiling all leads that come into Mission Headquarters ("Lead Man").
 - 1. Place a stack of Ground Interrogation Reports on a clipboard.
 - 2. Write mission number beside Item 1.
 - 3. Then number each of the sheets consecutively (Item 2) beginning with the number 1.
 - 4. When a lead comes into Mission Headquarters, the Lead Man completes Items 3-6 giving his own name and home unit.
 - 5. He then completes Items 7-35 from information supplied by the CAP ground Interrogation team or non-CAP individuals who may call in.
 - 6. Whenever information is relayed to Mission Headquarters through a third party (State Police, FAA, etc.), the original source of the information should be contacted and the lead thoroughly checked out.
 - 7. Do not fill out the Found Interrogation Report in duplicate. This can create confusion.
- B. Leads should be posted in order (1, 2, 3, 4, etc.) on a bulletin board.
- C. Any further information later obtained from the original source of a particular lead should be stapled to the original lead.
 - 1. The results of all follow-up investigations of a particular lead by aircraft or ground teams should be stapled to the original lead for future reference.
- D. If information is telephoned directly into Mission Headquarters by a non-CAP witness, the Lead Man who records the information should fill in Items 31-35 himself.
- E. The Lead Man should tell each CAP ground interrogation team the number he is assigning any leads the team phones or radios in.

Ground Interrogation Team

- A. Each ground interrogation team should have several copies of the form. Leave Items 1-6 blank.
 - 1. Fill in Item 2 only after Mission Headquarters has received the information on the form by telephone or radio and assigned the lead a number. Items 31-35 should be filled out by the interrogator immediately after interviewing a witness.
- B. Any lead collected by a ground interrogation team should be passed on <u>immediately</u> to Mission Headquarters by radio or telephone.
